Title: Time to get around to repurposing or reusing old tyres for good

Caption:

Christchurch students at Rangī Ruru Girls' School are considering ways to reuse and repurpose old tyres as a way to encourage a circular economy and reduce the mountain of tyres collected annually in our city. Possibilities include using the tyres for roading and turning them into fabrics. Many tyres are left littering our environment with people often dumping them in public places rather than paying to dispose of them. It is common to see tyres, gas cylinders and mattresses littering Christchurch's red zone.
